

NH₃ STORAGE & SUPPLY SYSTEM for SCR

NH₃ storage & supply system is designed to meet regulation on discharge by decreasing NO_x emitted from boilers in power plant using anhydrous ammonia.

COMPONENTS

1. NH₃ Storage Tank / 2. Vaporizer / 3. Accumulator / 4. Dilution Tank
5. Compressor / 6. Sump Pump / 7. Safety & Equipment / 8. Manual Valve
9. All Necessary Pipes, Controls and Instruments
